Subject Index

Abducens nerve
  Fibroblastic tumor of the abducens nerve. Case report, 296
Abscess
  Spinal epidural abscess due to Salmonella group C monophasic 1,5. Letter, 942
Acoustic neuroma
  Constant-current versus constant-voltage stimulation. Letters, 622
Acquired immunodeficiency syndrome
  AIDS with central nervous system toxoplasmosis. Letter, 459
  Neurological manifestations of the acquired immunodeficiency syndrome (AIDS): Experience at UCSF and review of the literature, 475
Acromegaly
  Acromegaly associated with suprasellar and pulmonary hemangiopericytomas. Case report, 767
Adenoma
  Clinical and histopathological characteristics of gonadotropin-producing pituitary adenomas, 376
  Pioneers in transsphenoidal pituitary surgery. Letters, 790
  Results of neurosurgical treatment by a transsphenoidal approach in 10 patients with Nelson's syndrome, 68
Adenosine triphosphatase
  Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Adhesive
  Neuropathological changes related to the transorbital application of ethyl 2-cyanoacrylate adhesive to the basal cerebral arteries of cats, 108
Adrenal medulla
  Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Air embolism
  Intravenous fluid loading as prophylaxis for paradoxical air embolism, 839
Alimentation
  Enteral hyperalimentation in head injury, 186
Alpha-fetoprotein
  Primary intracranial germ-cell tumors. A clinicopathological study of 14 cases, 826
American Association of Neurological Surgeons
  Scientific Program: Annual Meeting of The American Association of Neurological Surgeons, April 21–25, 1985, 464
Amplifier
  Detection and measurement of steady-state evoked potentials in real-time using a lock-in amplifier. Technical note, 935
Amputation
  Dorsal root entry zone lesions for post-amputation pain, 72
Amyloidoma
  Amyloidomas in the cerebellopontine angle and jugular foramen. Case report, 592
Anastomosis, *see* Bypass procedure
Anatomical study
  The perforating branches of the middle cerebral artery. A microanatomical study, 261
Anesthesia
  Assessment of cardiac and respiratory function during surgery on patients with acute quadriplegia, 843
  Implications of nimodipine prophylaxis of cerebral vasospasm on anesthetic management during intracranial aneurysm clipping, 200
  Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
Aneurysm
  Cerebrovascular reactivity in patients with ruptured intracranial aneurysms, 59
  Clip with enclosed spring for aneurysm surgery. Technical note, 612
  Cognitive impairment and adjustment in patients without neurological deficits after aneurysmal SAH and early operation, 673
  A combined epi- and subdural direct approach to carotid-ophthalmic artery aneurysms, 667
  Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
  Early operation and overall outcome in aneurysmal subarachnoid hemorrhage, 547
  Enlargement of an intracranial aneurysm in the eighth decade of life. Case report, 600
  Implications of nimodipine prophylaxis of cerebral vasospasm on anesthetic management during intracranial aneurysm clipping, 200
  Intraventricular hemorrhage due to aneurysms of the distal posterior inferior cerebellar artery. Report of three cases, 772
  Multiple intracranial aneurysms in sickle cell anemia. Report of two cases, 430
  The natural history of aneurysms and arteriovenous malformations, 321
  Neuropathological changes related to the transorbital application of ethyl 2-cyanoacrylate adhesive to the basal cerebral arteries of cats, 108
  Regional CBF, intraventricular pressure, and cerebral metabolism in patients with ruptured intracranial aneurysms, 48
  Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
  Vertebral artery rupture associated with closed head injury. Report of two cases, 135
  Zygomatic approach for lesions in the interpeduncular cistern, 340
Angiography
  Successful stereotaxic evacuation of an acute pontomedullary hematoma. Case report, 153
Angioma
  Oligodendroglioma and cerebral cavernous angioma. Case report, 145
Angiopathy
  Heparin reduces proliferative angiopathy following subarachnoid hemorrhage in cats, 570
Anterior cerebral artery
  Revascularization of the anterior cerebral artery. Report of two cases, 603
Anti-siphon device
  Anti-siphon shunt device. Letter, 791
Antibiotic therapy
  Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
  Wide variation in risk of wound infection following clean neurosurgery. Implications for perioperative antibiotic prophylaxis, 243
Anticoagulant therapy
  Anticoagulant therapy for radiation necrosis. Letters, 625
  Heparin reduces proliferative angiopathy following subarachnoid hemorrhage in cats, 570
Arteriovenous malformation
  Familial arteriovenous malformations. Report of four cases in

one family, 597
The natural history of aneurysms and arteriovenous malformations, 321
One-stage excision of high-flow arteriovenous malformations, 128
Successful stereotaxic evacuation of an acute pontomedullary hematoma. Case report, 153
Transcallosal approach to the contralateral ventricle. Technical note, 304
Artery, *see* specific arteries
Aspergillosis
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Case report, 776
Aspiration
CT-assisted stereotaxic aspiration of colloid cysts of the third ventricle, 238
Successful stereotaxic evacuation of an acute pontomedullary hematoma. Case report, 153
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Case report, 776
Astroblastoma
Evolution and outcome in malignant astroglial neoplasms of the cerebellum, 9
Astrocytoma
Cystic pilocytic astrocytomas of the cerebral hemispheres. Surgical experience with 51 cases and long-term results, 811
Evolution and outcome in malignant astroglial neoplasms of the cerebellum, 9
Postirradiation cerebellar glioma. Case report, 300
Astroprotein
Immunohistochemical study of metastatic brain tumors with astroprotein (GFAP), a glia-specific protein. Tissue architecture and the origin of blood vessels, 414
Autoregulation
Cerebrovascular reactivity in patients with ruptured intracranial aneurysms, 59
Axonal degeneration
Axonal degeneration induced by experimental noninvasive minor head injury, 96

Balloon catheter
Classification and treatment of spontaneous carotid-cavernous sinus fistulas, 248
Barbiturate therapy
Failure of prophylactic barbiturate coma: correction, 943
Failure of prophylactic barbiturate coma in the treatment of severe head injury, 383
Methylprednisolone half-life during simultaneous barbiturate treatment and mechanical hyperventilation of neurosurgical patients, 182
One-stage excision of high-flow arteriovenous malformations, 128
BCNU
Intra-arterial BCNU chemotherapy for malignant gliomas. Letters, 458
Beagle puppy model
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
Biopsy
CT-assisted stereotaxic aspiration of colloid cysts of the third ventricle, 238
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Case report, 776
Bipolar diathermy forceps
Bipolar diathermy forceps with automatic irrigation. Technical note, 933

Bitemporal compression
Bitemporal compression injury caused by static loading mechanism. Report of two cases, 438
Bleomycin
Evaluation of postoperative intratumoral injection of bleomycin for craniopharyngioma in children, 120
Blood-brain barrier
Immunohistochemical study of metastatic brain tumors with astroprotein (GFAP), a glia-specific protein. Tissue architecture and the origin of blood vessels, 414
Blood pressure
A comparison of physiological responses to percussive brain trauma in dogs and sheep, 587
Bone graft
Cranioplasty with inner table of bone flap. Technical note, 607
Bone necrosis
Steroids and avascular necrosis of bone. Letter, 459

Brain-death
Brain-death. Letters, 160
Brain stem
Axonal degeneration induced by experimental noninvasive minor head injury, 96
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
Brain tumor, *see also* specific tumors
Aspiration of blood from the jugular vein during intracarotid drug infusion in monkeys. Implications for extracorporeal drug removal, 576
Epidemiological findings in a brain-tumor cluster in Western Missouri, 856
Immunohistochemical study of metastatic brain tumors with astroprotein (GFAP), a glia-specific protein. Tissue architecture and the origin of blood vessels, 414
Study of the motility and contractility of cultured brain-tumor cells, 906
Supraophthalmic carotid infusion for brain chemotherapy. Experience with a new single-lumen catheter and maneuverable tip, 823
Bypass procedure
Bypass surgery in patients with intracranial stenotic lesions. Postoperative morbidity and angiographic findings, 532
Extracranial-intracranial arterial bypass for middle cerebral artery stenosis and occlusion. Operative results in 65 cases, 831
Revascularization of the anterior cerebral artery. Report of two cases, 603
Revascularization of the extracranial vertebral artery at any level without cross-clamping, 334
Stable xenon CT blood flow mapping for evaluation of patients with extracranial-intracranial bypass surgery, 324

Calcium
The role of calcium and cellular membrane dysfunction in experimental trauma and subarachnoid hemorrhage, 698
Calcium channel blocker
Effect of diltiazem on experimental chronic cerebral vasospasm in the monkey, 912
Implications of nimodipine prophylaxis of cerebral vasospasm on anesthetic management during intracranial aneurysm clipping, 200
The isolation and characterization of Ca^{++}-accumulating subcellular membrane fractions from cerebral arteries, 729
Capillary
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737
Microvascular alterations following cerebral contusion in rats. Light, scanning, and electron microscope study, 888
Carcinoembryonic antigen
Localization of carcinoembryonic antigen in mature intracranial teratomas, 870
Cardiac function
Assessment of cardiac and respiratory function during surgery on patients with acute quadriplegia, 843
Carmustine
Supraophthalmic carotid infusion for brain chemotherapy. Experience with a new single-lumen catheter and maneuverable tip, 823
Carotid artery
Classification and treatment of spontaneous carotid-cavernous sinus fistulas, 248
A combined epi- and subdural direct approach to carotid-ophthalmic artery aneurysms, 667
Carotid artery thrombosis
Bitemporal compression injury caused by static loading mechanism. Report of two cases, 438
Carotid-cavernous fistula
Classification and treatment of spontaneous carotid-cavernous sinus fistulas, 248
Carpal tunnel syndrome
Complications of carpal tunnel surgery, 352
Catecholamine
A comparison of physiological responses to percussive brain trauma in dogs and sheep, 587
Cavernous angioma
Oligodendroglioma and cerebral cavernous angioma. Case report, 145
CCNU
Variation in response to CCNU of glioblastoma multiforme in brain and cervical lymph node. Case report, 918
Cell motility
Study of the motility and contractility of cultured brain-tumor cells, 906
Cerebellopontine angle
Amyloidomas in the cerebellopontine angle and jugular foramen. Case report, 592
Cerebral arteries
Histopathological study of major intracranial arteries in premature infants related to intracranial hemorrhage, 419
Intimal proliferation of cerebral arteries: correction. Letter, 165
Cerebral blood flow
5-Hydroxytryptamine innervation of vessels in the rat cerebral cortex. Immunohistochemical findings and hydrogen clearance study of rCBF, 42
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
CBF and time thresholds for the formation of ischemic cerebral edema, and effect of reperfusion in baboons, 31
Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
Evaluation of treatment of normal-pressure hydrocephalus, 513
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
Regional CBF, intraventricular pressure, and cerebral metabolism in patients with ruptured intracranial aneurysms, 48
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
Stable xenon CT blood flow mapping for evaluation of patients with extracranial-intracranial bypass surgery, 324
Cerebral blood volume
The role of cerebral blood volume changes in brain specific-gravity measurements, 704

Cerebral infarction
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737
Cerebral vasospasm
Evaluation of the efficacy of intrathecal nimodipine in canine models of chronic cerebral vasospasm, 721
Cerebrospinal fluid absorption
ICP patterns and isotope cisternography in patients with communicating hydrocephalus following rupture of intracranial aneurysm, 220
Cerebrospinal fluid shunt, *see* Shunt
Cervical spine
Cervical diastematomyelia presenting in adulthood. Case report, 449
Vocal cord paralysis associated with anterior cervical fusion. Considerations for prevention and treatment, 657
Chemical denervation
Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Chemonucleolysis
Complications of chymopapain chemonucleolysis. Letters, 621
Complications of chymopapain injection. Letters, 621
Efficacy of chymopapain chemonucleolysis. A long-term review of 105 patients, 662
Chemotherapy
Aspiration of blood from the jugular vein during intracarotid drug infusion in monkeys. Implications for extracorporeal drug removal, 576
Evaluation of postoperative intratumoral injection of bleomycin for craniopharyngioma in children, 120
Intra-arterial BCNU chemotherapy for malignant gliomas. Letters, 458
Primary central nervous system lymphoma, 522
Supraophthalmic carotid infusion for brain chemotherapy. Experience with a new single-lumen catheter and maneuverable tip, 823
Variation in response to CCNU of glioblastoma multiforme in brain and cervical lymph node. Case report, 918
Children
Evaluation of postoperative intratumoral injection of bleomycin for craniopharyngioma in children, 120
Outcome from severe head injury in children and adolescents, 194
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
Traumatic extradural hematomas in infancy and childhood. Experience with 144 cases, 861
Treatment of craniopharyngiomas in children: 1972–1981, 496
Chordoma
Zygomatic approach for lesions in the interpeduncular cistern, 340
Chymopapain
Complications of chymopapain chemonucleolysis. Letters, 621
Complications of chymopapain injection. Letters, 621
Efficacy of chymopapain chemonucleolysis. A long-term review of 105 patients, 662
Cisplatin
Supraophthalmic carotid infusion for brain chemotherapy. Experience with a new single-lumen catheter and maneuverable tip, 823
Cognitive impairment
Cognitive impairment and adjustment in patients without neurological deficits after aneurysmal SAH and early operation, 673
Colloid cyst
CT-assisted stereotaxic aspiration of colloid cysts of the third ventricle, 238
Coma
Failure of prophylactic barbiturate coma: correction, 943
Failure of prophylactic barbiturate coma in the treatment of severe head injury, 383
Computerized tomography
CT-assisted stereotaxic aspiration of colloid cysts of the third ventricle, 238
Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
Stable xenon CT blood flow mapping for evaluation of patients with extracranial-intracranial bypass surgery, 324
Congenital abnormality
Familial arteriovenous malformations. Report of four cases in one family, 597
Contusion
Microvascular alterations following cerebral contusion in rats. Light, scanning, and electron microscope study, 888
Conus medullaris
Conus ganglioglioma in a 2½-year-old boy. Case report, 142
Costotransversectomy
Anterolateral decompression for metastatic epidural spinal cord tumors. Results of a modified costotransversectomy approach, 344
Cranial nerve injury
Bitemporal compression injury caused by static loading mechanism. Report of two cases, 438
Craniopharyngioma
Craniopharyngioma with erosion and drainage into the nasopharynx. An autobiographical case report, 132
The ectopic pituitary gland in cases of craniopharyngioma. Report of two cases, 291
The efficacy of radiotherapy for craniopharyngioma, 648
Evaluation of postoperative intratumoral injection of bleomycin for craniopharyngioma in children, 120
Radical excision of craniopharyngioma. Results in 20 patients, 174
Treatment of craniopharyngiomas in children: 1972–1981, 496
Zygomatic approach for lesions in the interpeduncular cistern, 340
Cranioplasty
Cranioplasty with inner table of bone flap. Technical note, 607
Cushing's disease
Results of neurosurgical treatment by a transsphenoidal approach in 10 patients with Nelson's syndrome, 68
Cyanoacrylate adhesive
Neuropathological changes related to the transorbital application of ethyl 2-cyanoacrylate adhesive to the basal cerebral arteries of cats, 108
Cyst, *see* Diploic cyst, Epidermoid cyst, Hydatid cyst, Orbital cyst, Sacral perineural cyst
Cytochalasin B
Study of the motility and contractility of cultured brain-tumor cells, 906
Cytogenesis
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Cytoplasm
Estrogen and progestin binding by cytosolic and nuclear fractions of human meningiomas, 750

Dementia
Evaluation of treatment of normal-pressure hydrocephalus, 513
Dexamethasone
Current application of "high-dose" steroid therapy for CNS injury. A pharmacological perspective, 806
Diastematomyelia
Cervical diastematomyelia presenting in adulthood. Case report, 449

Index

Management of lipomyelomeningoceles. Experience at the Hospital for Sick Children, Toronto, 1
Diltiazem
Effect of diltiazem on experimental chronic cerebral vasospasm in the monkey, 912
Diploic cyst
Giant intradiploic epidermoid cysts of the skull. Report of two cases, 445
Dopamine
Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Dorsal root entry zone
Dorsal root entry zone lesions for post-amputation pain, 72
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Drug infusion
Evaluation of postoperative intratumoral injection of bleomycin for craniopharyngioma in children, 120
Evaluation of the efficacy of intrathecal nimodipine in canine models of chronic cerebral vasospasm, 721
Intra-arterial BCNU chemotherapy for malignant gliomas. Letters, 458
Supraophthalmic carotid infusion for brain chemotherapy. Experience with a new single-lumen catheter and maneuverable tip, 823
Drug removal
Aspiration of blood from the jugular vein during intracarotid drug infusion in monkeys. Implications for extracorporeal drug removal, 576
Dural sinus
Anatomic variations of venous sinuses in the region of the torcular Herophili, 90

Early surgery
Cognitive impairment and adjustment in patients without neurological deficits after aneurysmal SAH and early operation, 673
Early operation and overall outcome in aneurysmal subarachnoid hemorrhage, 547
The natural history of aneurysms and arteriovenous malformations, 321
Echocardiography
Intraoperative echocardiographic control during ventriculoatrial shunt placement. Technical note, 783
Ectopia
The ectopic pituitary gland in cases of craniopharyngioma. Report of two cases, 291
Edema
CBF and time thresholds for the formation of ischemic cerebral edema, and effect of reperfusion in baboons, 31
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
The role of cerebral blood volume changes in brain specific-gravity measurements, 704
Somatosensory evoked potentials as a measure of experimental cerebral ischemia, 269
Electrical stimulation
Constant-current versus constant-voltage stimulation. Letters, 622
Electrical stimulation of the brain in treatment of chronic pain. Experience over 5 years, 389
Immediate effects of spinal cord stimulation in spinal spasticity, 558
Inhibition of primate spinothalamic tract cells by TENS, 276
Pain suppression induced by electrical stimulation of the pontine parabrachial region. Experimental study in cats, 397
Verbal memory deficits after left temporal lobectomy for epilepsy. Mechanism and intraoperative prediction, 101
Electron microscopy
Eosinophil degranulation in the capsule of chronic subdural hematomas, 257
Microvascular alterations following cerebral contusion in rats. Light, scanning, and electron microscope study, 888
Embolectomy
Emergency embolectomy for acute occlusion of the middle cerebral artery, 639
Embolization
Classification and treatment of spontaneous carotid-cavernous sinus fistulas, 248
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737
Embryonal neuroepithelial tumor
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Emergency services
Cause of decline in head-injury mortality rate in San Diego County, California, 528
Endarterectomy
Positional intermittent occlusion of the internal carotid artery. Case report, 435
Endogenous opioids
Inhibition of primate spinothalamic tract cells by TENS, 276
Endothelium
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737
Enteral hyperalimentation
Enteral hyperalimentation in head injury, 186
Environmental carcinogens
Epidemiological findings in a brain-tumor cluster in Western Missouri, 856
Enzyme production
Methylprednisolone half-life during simultaneous barbiturate treatment and mechanical hyperventilation of neurosurgical patients, 182
Eosinophil
Eosinophil degranulation in the capsule of chronic subdural hematomas, 257
Ependymoblastoma
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Ependymoma
Malignant behavior of myxopapillary ependymoma. Report of three cases, 925
Epidemiological study
Epidemiological findings in a brain-tumor cluster in Western Missouri, 856
Epidermoid cyst
Epidermoid cysts of the posterior fossa, 214
Giant intradiploic epidermoid cysts of the skull. Report of two cases, 445
Epilepsy
Verbal memory deficits after left temporal lobectomy for epilepsy. Mechanism and intraoperative prediction, 101
Errata
Computerized tomography of sacral perineural cysts: correction. Letter, 165
Failure of prophylactic barbiturate coma: correction, 943
Intimal proliferation of cerebral arteries: correction. Letter, 165
Intramedullary spinal cord metastasis: erratum. Letter, 943
Estrogen
Estrogen and progestin binding by cytosolic and nuclear fractions of human meningiomas, 750
Modulation of meningioma cell growth by sex steroid hormones *in vitro*, 757
Evoked potentials
Detection and measurement of steady-state evoked potentials

in real-time using a lock-in amplifier. Technical note, 935
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
Intraoperative brain-stem auditory evoked potentials during posterior fossa microvascular decompression, 552
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Pattern-reversal visual evoked potentials in patients with hydrocephalus, 234
Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
Somatosensory evoked potentials as a measure of experimental cerebral ischemia, 269
Spinal cord contusion injury: experimental dissociation of hemorrhagic necrosis and subacute loss of axonal conduction, 115
Extracranial-intracranial bypass
Bypass surgery in patients with intracranial stenotic lesions. Postoperative morbidity and angiographic findings, 532
Extracranial-intracranial arterial bypass for middle cerebral artery stenosis and occlusion. Operative results in 65 cases, 831
Stable xenon CT blood flow mapping for evaluation of patients with extracranial-intracranial bypass surgery, 324
Extradural hematoma
Spontaneous bilateral extradural hematomas. Case report, 139
Traumatic extradural hematomas in infancy and childhood. Experience with 144 cases, 861

Familial brain tumor
Familial pineoblastoma. Report of two cases, 930
Fistula
Classification and treatment of spontaneous carotid-cavernous sinus fistulas, 248
One-stage excision of high-flow arteriovenous malformations, 128
Posttraumatic cerebrospinal fluid cyst of the orbit. Case report, 922
Fluid loading
Intravenous fluid loading as prophylaxis for paradoxical air embolism, 839
Fourth ventricle
Subependymomas of the fourth ventricle. Surgical treatment in 12 cases, 508
Freeze-fracture replica technique
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737

Ganglioglioma
Conus ganglioglioma in a 2½-year-old boy. Case report, 142
Gerbil model
Leukotriene production in gerbil brain after ischemic insult, subarachnoid hemorrhage, and concussive injury, 865
Germ-cell tumor
Primary intracranial germ-cell tumors. A clinicopathological study of 14 cases, 826
Germinoma
Primary intracranial germ-cell tumors. A clinicopathological study of 14 cases, 826
Glial fibrillary acidic protein
Immunohistochemical study of metastatic brain tumors with astroprotein (GFAP), a glia-specific protein. Tissue architecture and the origin of blood vessels, 414

Glioblastoma multiforme
Epidemiological findings in a brain-tumor cluster in Western Missouri, 856
Variation in response to CCNU of glioblastoma multiforme in brain and cervical lymph node. Case report, 918
Glioma
Intra-arterial BCNU chemotherapy for malignant gliomas. Letters, 458
Postirradiation cerebellar glioma. Case report, 300
Prediction of survival in glioma patients by means of positron emission tomography, 816
Glucocorticoid therapy
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Gonadotropin
Clinical and histopathological characteristics of gonadotropin-producing pituitary adenomas, 376
Gravimetry
The role of cerebral blood volume changes in brain specific-gravity measurements, 704

Hamartoma
Hypothalamic hamartoma successfully treated by operation. Case report, 288
Hand surgery
Complications of carpal tunnel surgery, 352
Head injury
Axonal degeneration induced by experimental noninvasive minor head injury, 96
Bitemporal compression injury caused by static loading mechanism. Report of two cases, 438
Cause of decline in head-injury mortality rate in San Diego County, California, 528
A comparison of physiological responses to percussive brain trauma in dogs and sheep, 587
Current application of "high-dose" steroid therapy for CNS injury. A pharmacological perspective, 806
Enteral hyperalimentation in head injury, 186
Failure of prophylactic barbiturate coma: correction, 943
Failure of prophylactic barbiturate coma in the treatment of severe head injury, 383
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Leukotriene production in gerbil brain after ischemic insult, subarachnoid hemorrhage, and concussive injury, 865
Outcome from severe head injury in children and adolescents, 194
Posttraumatic cerebrospinal fluid cyst of the orbit. Case report, 922
The role of calcium and cellular membrane dysfunction in experimental trauma and subarachnoid hemorrhage, 698
Selection of patients for ICP monitoring. Letters, 624
Traumatic extradural hematomas in infancy and childhood. Experience with 144 cases, 861
Vertebral artery rupture associated with closed head injury. Report of two cases, 135
Hemangiopericytoma
Acromegaly associated with suprasellar and pulmonary hemangiopericytomas. Case report, 767
Hematoma, *see also* Extradural hematoma, Intraparenchymal hematoma, Pontine hematoma, Subdural hematoma
Lysis of intracranial hematomas with urokinase in a rabbit model, 580
Outcome from severe head injury in children and adolescents, 194
Stereotaxic evacuation of hematomas. Letters, 460

Index

Stereotaxic evacuation of spontaneous intracerebral hematomas, 206
Hemorrhage, *see* Intracranial hemorrhage, Intraventricular hemorrhage, Subarachnoid hemorrhage
Hemorrhagic necrosis
Spinal cord contusion injury: experimental dissociation of hemorrhagic necrosis and subacute loss of axonal conduction, 115
Heparin
Heparin reduces proliferative angiopathy following subarachnoid hemorrhage in cats, 570
Hormone, *see also* specific hormones
Estrogen and progestin binding by cytosolic and nuclear fractions of human meningiomas, 750
Hormonal receptors in meningiomas. Letters, 162
Hypothalamic hamartoma successfully treated by operation. Case report, 288
Modulation of meningioma cell growth by sex steroid hormones *in vitro*, 757
Human choriogonadotropin
Primary intracranial germ-cell tumors. A clinicopathological study of 14 cases, 826
Hydatid cyst
Growth rate of secondary hydatid cysts of the brain. Case report, 781
Hydrocephalus
Anti-siphon shunt device. Letter, 791
ICP patterns and isotope cisternography in patients with communicating hydrocephalus following rupture of intracranial aneurysm, 220
Intracranial pressure changes in arrested hydrocephalus, 77
Intraoperative echocardiographic control during ventriculoatrial shunt placement. Technical note, 783
Isolated ventricles following intraventricular hemorrhage, 357
Pattern-reversal visual evoked potentials in patients with hydrocephalus, 234
Thermosensitive determination of obstructed sites in ventriculoperitoneal shunts, 363
Hydrocortisone
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Hydrogen clearance technique
5-Hydroxytryptamine innervation of vessels in the rat cerebral cortex. Immunohistochemical findings and hydrogen clearance study of rCBF, 42
Hydromyelia
Management of lipomyelomeningoceles. Experience at the Hospital for Sick Children, Toronto, 1
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
5-Hydroxytryptamine
5-Hydroxytryptamine innervation of vessels in the rat cerebral cortex. Immunohistochemical findings and hydrogen clearance study of rCBF, 42
Hyperventilation
Methylprednisolone half-life during simultaneous barbiturate treatment and mechanical hyperventilation of neurosurgical patients, 182
Hypofibrinogenemia
Spontaneous bilateral extradural hematomas. Case report, 139
Hypoplasia
Histopathological study of major intracranial arteries in premature infants related to intracranial hemorrhage, 419

Immunohistochemistry
5-Hydroxytryptamine innervation of vessels in the rat cerebral cortex. Immunohistochemical findings and hydrogen clearance study of rCBF, 42
Immunosuppression
Neurological manifestations of the acquired immunodeficiency syndrome (AIDS): Experience at UCSF and review of the literature, 475
Organ transplantation. Letter, 315
Indomethacin
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
Infant
Posterior fossa subdural hematomas in newborns. Letter, 626
Subdural hematomas in infants. Letters, 316
Infarction
Neuropathological changes related to the transorbital application of ethyl 2-cyanoacrylate adhesive to the basal cerebral arteries of cats, 108
Somatosensory evoked potentials as a measure of experimental cerebral ischemia, 269
Infection
Growth rate of secondary hydatid cysts of the brain. Case report, 781
Neurological manifestations of the acquired immunodeficiency syndrome (AIDS): Experience at UCSF and review of the literature, 475
Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
Spinal epidural abscess due to Salmonella group C monophasic 1,5. Letter, 942
Wide variation in risk of wound infection following clean neurosurgery. Implications for perioperative antibiotic prophylaxis, 243
Instrumentation
Bipolar diathermy forceps with automatic irrigation. Technical note, 933
Clip with enclosed spring for aneurysm surgery. Technical note, 612
Retraction system for transsphenoidal surgery. Technical note, 307
Stereoscopic television system for use with the operating microscope. Technical note, 610
Stereotaxic evacuation of spontaneous intracerebral hematomas, 206
Internal carotid artery
Aspiration of blood from the jugular vein during intracarotid drug infusion in monkeys. Implications for extracorporeal drug removal, 576
Enlargement of an intracranial aneurysm in the eighth decade of life. Case report, 600
Positional intermittent occlusion of the internal carotid artery. Case report, 435
Intervertebral disc
Complications of chymopapain chemonucleolysis. Letters, 621
Complications of chymopapain injection. Letters, 621
Efficacy of chymopapain chemonucleolysis. A long-term review of 105 patients, 662
Intracranial hemorrhage
Histopathological study of major intracranial arteries in premature infants related to intracranial hemorrhage, 419
Intracranial pressure
Brain tissue pressure in focal cerebral ischemia, 83
ICP patterns and isotope cisternography in patients with communicating hydrocephalus following rupture of intracranial aneurysm, 220
Intracranial pressure changes in arrested hydrocephalus, 77
Outcome from severe head injury in children and adolescents, 194
Regional CBF, intraventricular pressure, and cerebral metabolism in patients with ruptured intracranial aneurysms, 48
Intracranial pressure monitoring
Selection of patients for ICP monitoring. Letters, 624

Intramedullary tumor
Intramedullary spinal cord metastasis. A clinicopathological study of 13 cases, 227
Intraoperative monitoring
Detection and measurement of steady-state evoked potentials in real-time using a lock-in amplifier. Technical note, 935
Intraoperative brain-stem auditory evoked potentials during posterior fossa microvascular decompression, 552
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Intraparenchymal hematoma
The role of calcium and cellular membrane dysfunction in experimental trauma and subarachnoid hemorrhage, 698
Intraventricular hemorrhage
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
Intraventricular hemorrhage due to aneurysms of the distal posterior inferior cerebellar artery. Report of three cases, 772
Isolated ventricles following intraventricular hemorrhage, 357
Ischemia
Brain tissue pressure in focal cerebral ischemia, 83
CBF and time thresholds for the formation of ischemic cerebral edema, and effect of reperfusion in baboons, 31
Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
Emergency embolectomy for acute occlusion of the middle cerebral artery, 639
Extracranial-intracranial arterial bypass for middle cerebral artery stenosis and occlusion. Operative results in 65 cases, 831
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874
Leukotriene production in gerbil brain after ischemic insult, subarachnoid hemorrhage, and concussive injury, 865
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
The role of cerebral blood volume changes in brain specific-gravity measurements, 704
Somatosensory evoked potentials as a measure of experimental cerebral ischemia, 269

Jugular foramen
Amyloidomas in the cerebellopontine angle and jugular foramen. Case report, 592
Jugular vein
Aspiration of blood from the jugular vein during intracarotid drug infusion in monkeys. Implications for extracorporeal drug removal, 576

Ketamine
Indomethacin-mediated improvement following middle cerebral artery occlusion in cats. Effects of anesthesia, 874

Lambdoid suture
Lambdoid suture synostosis. Letters, 165
Laryngeal nerve injury
Vocal cord paralysis associated with anterior cervical fusion. Considerations for prevention and treatment, 657
Lateral ventricle
Transcallosal approach to the contralateral ventricle. Technical note, 304
Leukotriene
Leukotriene production in gerbil brain after ischemic insult, subarachnoid hemorrhage, and concussive injury, 865
Lipid peroxidation
Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Lipomyelomeningocele
Management of lipomyelomeningoceles. Experience at the Hospital for Sick Children, Toronto, 1
Lymph flow
A comparison of physiological responses to percussive brain trauma in dogs and sheep, 587
Lymphoma
Primary central nervous system lymphoma, 522

Magnetic resonance imaging
Subependymomas of the fourth ventricle. Surgical treatment in 12 cases, 508
Malignant tumor, *see also* Metastasis
Evolution and outcome in malignant astroglial neoplasms of the cerebellum, 9
Intramedullary spinal cord metastasis. A clinicopathological study of 13 cases, 227
Malignant behavior of myxopapillary ependymoma. Report of three cases, 925
Medical ethics
Brain-death. Letters, 160
Medulla oblongata compression
Hemiparesis caused by vertebral artery compression of the medulla oblongata. Case report, 425
Medulloblastoma
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Evolution and outcome in malignant astroglial neoplasms of the cerebellum, 9
Medulloepithelioma
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Melanoma
Neurocutaneous melanosis with hydrocephalus and syringomyelia. Case report, 148
Meningioma
Benign metastasizing meningioma. Case report, 763
Estrogen and progestin binding by cytosolic and nuclear fractions of human meningiomas, 750
Hormonal receptors in meningiomas. Letters, 162
Meningioma: analysis of recurrence and progression following neurosurgical resection, 18
Modulation of meningioma cell growth by sex steroid hormones *in vitro*, 757
Radiation therapy for incompletely resected meningiomas, 502
Visual function following optic canal decompression via craniotomy, 631
Meningitis
Epidermoid cysts of the posterior fossa, 214
Metabolism
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Metastasis
Anterolateral decompression for metastatic epidural spinal cord

Index

tumors. Results of a modified costotransversectomy approach, 344
Benign metastasizing meningioma. Case report, 763
Immunohistochemical study of metastatic brain tumors with astroprotein (GFAP), a glia-specific protein. Tissue architecture and the origin of blood vessels, 414
Intramedullary spinal cord metastasis. A clinicopathological study of 13 cases, 227
Intramedullary spinal cord metastasis: erratum. Letter, 943
Variation in response to CCNU of glioblastoma multiforme in brain and cervical lymph node. Case report, 918
Methylprednisolone
Current application of "high-dose" steroid therapy for CNS injury. A pharmacological perspective, 806
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Methylprednisolone half-life during simultaneous barbiturate treatment and mechanical hyperventilation of neurosurgical patients, 182
Metrizamide computerized tomography
Hemiparesis caused by vertebral artery compression of the medulla oblongata. Case report, 425
Microvascular decompression
Hemiparesis caused by vertebral artery compression of the medulla oblongata. Case report, 425
Intraoperative brain-stem auditory evoked potentials during posterior fossa microvascular decompression, 552
Microvasculature
Microvascular alterations following cerebral contusion in rats. Light, scanning, and electron microscope study, 888
Middle cerebral artery
Emergency embolectomy for acute occlusion of the middle cerebral artery, 639
Extracranial-intracranial arterial bypass for middle cerebral artery stenosis and occlusion. Operative results in 65 cases, 831
The perforating branches of the middle cerebral artery. A microanatomical study, 261
Somatosensory evoked potentials as a measure of experimental cerebral ischemia, 269
Monoamine
Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Muscle hypertrophy
Calf enlargement from S-1 radiculopathy. Report of two cases, 442
Myelomeningocele
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
Myelopathy
Cervical diastematomyelia presenting in adulthood. Case report, 449
Myxopapillary tumor
Malignant behavior of myxopapillary ependymoma. Report of three cases, 925

Na^+-K^+-ATPase
Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Neck injury
Vertebral artery rupture associated with closed head injury. Report of two cases, 135
Nelson's syndrome
Results of neurosurgical treatment by a transsphenoidal approach in 10 patients with Nelson's syndrome, 68
Neonate
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
Isolated ventricles following intraventricular hemorrhage, 357
Nerve conduction
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Reflex activity and axonal conduction in the L-7 spinal cord segment following experimental compression trauma, 898
Nerve decompression
Complications of carpal tunnel surgery, 352
Visual function following optic canal decompression via craniotomy, 631
Nerve injury
Thermographic imaging of cutaneous sensory segment in patients with peripheral nerve injury. Skin-temperature stability between sides of the body, 716
Thermographic presentation of cutaneous sensory and vasomotor activity in the injured peripheral nerve, 711
Nerve-sheath tumor
Fibroblastic tumor of the abducens nerve. Case report, 296
Neural conduction
Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
Spinal cord contusion injury: experimental dissociation of hemorrhagic necrosis and subacute loss of axonal conduction, 115
Neurinoma
Spontaneous activity of ventral root axons following peripheral nerve injury, 408
Suprasellar recurrence of third nerve neurinoma. Letter, 317
Neuroblastoma
Embryonal central neuroepithelial tumors and their differentiating potential. A cytogenetic view of a complex neuro-oncological problem, 795
Neurocutaneous melanosis
Neurocutaneous melanosis with hydrocephalus and syringomyelia. Case report, 148
Neurofibroma
Fibroblastic tumor of the abducens nerve. Case report, 296
Neuropsychometrics
Intracranial pressure changes in arrested hydrocephalus, 77
Neurosurgical history
Pioneers in transsphenoidal pituitary surgery. Letters, 790
Nevus
Neurocutaneous melanosis with hydrocephalus and syringomyelia. Case report, 148
Nimodipine
Evaluation of the efficacy of intrathecal nimodipine in canine models of chronic cerebral vasospasm, 721
Implications of nimodipine prophylaxis of cerebral vasospasm on anesthetic management during intracranial aneurysm clipping, 200
Nitrosourea
Intra-arterial BCNU chemotherapy for malignant gliomas. Letters, 458
Variation in response to CCNU of glioblastoma multiforme in brain and cervical lymph node. Case report, 918
Normal-pressure hydrocephalus
Evaluation of treatment of normal-pressure hydrocephalus, 513
Pattern-reversal visual evoked potentials in patients with hydrocephalus, 234

Oligodendroglioma
Oligodendroglioma and cerebral cavernous angioma. Case report, 145

Oncocytic transformation
Clinical and histopathological characteristics of gonadotropin-producing pituitary adenomas, 376
Operating microscope
Stereoscopic television system for use with the operating microscope. Technical note, 610
Operative position
Intravenous fluid loading as prophylaxis for paradoxical air embolism, 839
Operative technique
Anterolateral decompression for metastatic epidural spinal cord tumors. Results of a modified costotransversectomy approach, 344
A combined epi- and subdural direct approach to carotid-ophthalmic artery aneurysms, 667
Complications of carpal tunnel surgery, 352
Pioneers in transsphenoidal pituitary surgery. Letters, 790
Transcallosal approach to the contralateral ventricle. Technical note, 304
Transoral transclival removal of a schwannoma anterior to the craniocervical junction. Case report, 293
Zygomatic approach for lesions in the interpeduncular cistern, 340
Ophthalmic artery
A combined epi- and subdural direct approach to carotid-ophthalmic artery aneurysms, 667
Ophthalmoplegia
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Case report, 776
Optic canal
Visual function following optic canal decompression via craniotomy, 631
Orbital cyst
Posttraumatic cerebrospinal fluid cyst of the orbit. Case report, 922
Organ transplantation
Organ transplantation. Letter, 315
Outcome, *see also* Prognosis
Early operation and overall outcome in aneurysmal subarachnoid hemorrhage, 547
Efficacy of chymopapain chemonucleolysis. A long-term review of 105 patients, 662
The efficacy of radiotherapy for craniopharyngioma, 648
Meningioma: analysis of recurrence and progression following neurosurgical resection, 18
Traumatic extradural hematomas in infancy and childhood. Experience with 144 cases, 861

Pain
Dorsal root entry zone lesions for post-amputation pain, 72
Electrical stimulation of the brain in treatment of chronic pain. Experience over 5 years, 389
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Pain suppression induced by electrical stimulation of the pontine parabrachial region. Experimental study in cats, 397
Spontaneous activity of ventral root axons following peripheral nerve injury, 408
Pallidotomy
Brain targets in surgery for Parkinson's disease. Results of a survey of neurosurgeons, 349
Paramedics
Cause of decline in head-injury mortality rate in San Diego County, California, 528
Parasite
Growth rate of secondary hydatid cysts of the brain. Case report, 781
Parkinson's disease
Brain targets in surgery for Parkinson's disease. Results of a survey of neurosurgeons, 349
Thalamotomy for Parkinson's disease. Letters, 163
Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Peripheral nerve injury
Spontaneous activity of ventral root axons following peripheral nerve injury, 408
Phantom pain
Dorsal root entry zone lesions for post-amputation pain, 72
Pilocytic astrocytoma
Cystic pilocytic astrocytomas of the cerebral hemispheres. Surgical experience with 51 cases and long-term results, 811
Pineoblastoma
Familial pineoblastoma. Report of two cases, 930
Pituitary gland
The ectopic pituitary gland in cases of craniopharyngioma. Report of two cases, 291
Pituitary tumor, *see* Adenoma
Pontine hematoma
Successful stereotaxic evacuation of an acute pontomedullary hematoma. Case report, 153
Positron emission tomography
Prediction of survival in glioma patients by means of positron emission tomography, 816
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Posterior fossa
Epidermoid cysts of the posterior fossa, 214
Intraoperative brain-stem auditory evoked potentials during posterior fossa microvascular decompression, 552
Posterior fossa subdural hematomas in newborns. Letter, 626
Posterior inferior cerebellar artery
Intraventricular hemorrhage due to aneurysms of the distal posterior inferior cerebellar artery. Report of three cases, 772
Potassium
The role of calcium and cellular membrane dysfunction in experimental trauma and subarachnoid hemorrhage, 698
Precocious puberty
Hypothalamic hamartoma successfully treated by operation. Case report, 288
Prednisolone
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Premature infant
Histopathological study of major intracranial arteries in premature infants related to intracranial hemorrhage, 419
Progesterone
Estrogen and progestin binding by cytosolic and nuclear fractions of human meningiomas, 750
Modulation of meningioma cell growth by sex steroid hormones *in vitro*, 757
Prognosis, *see also* Outcome
Prediction of survival in glioma patients by means of positron emission tomography, 816
Prostaglandin
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
Pulmonary tumor
Acromegaly associated with suprasellar and pulmonary hemangiopericytomas. Case report, 767
Benign metastasizing meningioma. Case report, 763

Quadriplegia
Assessment of cardiac and respiratory function during surgery on patients with acute quadriplegia, 843

Index

Rabbit model
Lysis of intracranial hematomas with urokinase in a rabbit model, 580
Radial nerve
Complications of carpal tunnel surgery, 352
Radiation-induced tumor
Postirradiation cerebellar glioma. Case report, 300
Radiation necrosis
Anticoagulant therapy for radiation necrosis. Letters, 625
Radiation therapy
The efficacy of radiotherapy for craniopharyngioma, 648
Meningioma: analysis of recurrence and progression following neurosurgical resection, 18
Primary central nervous system lymphoma, 522
Radiation therapy for incompletely resected meningiomas, 502
Radical excision of craniopharyngioma. Results in 20 patients, 174
Treatment of craniopharyngiomas in children: 1972–1981, 496
Radiculopathy
Calf enlargement from S-1 radiculopathy: Report of two cases, 442
Respiratory function
Assessment of cardiac and respiratory function during surgery on patients with acute quadriplegia, 843
Reticular fiber deficiency
Histopathological study of major intracranial arteries in premature infants related to intracranial hemorrhage, 419
Retractor
Retraction system for transsphenoidal surgery. Technical note, 307
Revascularization, *see* Bypass procedure
Rhinorrhea
Craniopharyngioma with erosion and drainage into the nasopharynx. An autobiographical case report, 132

Sacral perineural cyst
Computerized tomography of sacral perineural cysts: correction. Letter, 165
Salmonella
Spinal epidural abscess due to Salmonella group C monophasic 1,5. Letter, 942
Scanning electron microscopy
Freeze-fracture replica study of capillary endothelium after embolization in the dog, 737
Schwannoma
Fibroblastic tumor of the abducens nerve. Case report, 296
Transoral transclival removal of a schwannoma anterior to the craniocervical junction. Case report, 293
Scoliosis
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
Shunt
Intracranial pressure changes in arrested hydrocephalus, 77
Intraoperative echocardiographic control during ventriculoatrial shunt placement. Technical note, 783
Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
Thermosensitive determination of obstructed sites in ventriculoperitoneal shunts, 363
Sickle cell anemia
Multiple intracranial aneurysms in sickle cell anemia. Report of two cases, 430
Skull defect
Bitemporal compression injury caused by static loading mechanism. Report of two cases, 438
Cranioplasty with inner table of bone flap. Technical note, 607
Skull tumor
Giant intradiploic epidermoid cysts of the skull. Report of two cases, 445
Spasticity
Immediate effects of spinal cord stimulation in spinal spasticity, 558
Progressive spasticity and scoliosis in children with myelomeningocele. Radiological investigation and surgical treatment, 367
Specific gravity
The role of cerebral blood volume changes in brain specific-gravity measurements, 704
Spinal cord
Intramedullary spinal cord metastasis. A clinicopathological study of 13 cases, 227
Intramedullary spinal cord metastasis: erratum. Letter, 943
Intraoperative evoked potentials recorded in man directly from dorsal roots and spinal cord, 680
Spinal epidural abscess due to Salmonella group C monophasic 1,5. Letter, 942
Spinal cord injury
Assessment of cardiac and respiratory function during surgery on patients with acute quadriplegia, 843
Current application of "high-dose" steroid therapy for CNS injury. A pharmacological perspective, 806
Reflex activity and axonal conduction in the L-7 spinal cord segment following experimental compression trauma, 898
Role of monoamines in experimental spinal injury in rats. Relationship between Na^+-K^+-ATPase and lipid peroxidation, 743
Spinal cord contusion injury: experimental dissociation of hemorrhagic necrosis and subacute loss of axonal conduction, 115
Spinal cord stimulation
Immediate effects of spinal cord stimulation in spinal spasticity, 558
Spinal cord tumor
Anterolateral decompression for metastatic epidural spinal cord tumors. Results of a modified costotransversectomy approach, 344
Conus ganglioglioma in a 2½-year-old boy. Case report, 142
Spinal dysraphism
Management of lipomyelomeningoceles. Experience at the Hospital for Sick Children, Toronto, 1
Spinothalamic tract
Inhibition of primate spinothalamic tract cells by TENS, 276
Spongioblastoma
Evolution and outcome in malignant astroglial neoplasms of the cerebellum, 9
Stereoscopic television
Stereoscopic television system for use with the operating microscope. Technical note, 610
Stereotaxic technique
Brain targets in surgery for Parkinson's disease. Results of a survey of neurosurgeons, 349
CT-assisted stereotaxic aspiration of colloid cysts of the third ventricle, 238
Stereotaxic evacuation of hematomas. Letters, 460
Stereotaxic evacuation of spontaneous intracerebral hematomas, 206
Successful stereotaxic evacuation of an acute pontomedullary hematoma. Case report, 153
Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Steroid therapy
Current application of "high-dose" steroid therapy for CNS injury. A pharmacological perspective, 806
High-dose glucocorticoid treatment improves neurological recovery in head-injured mice, 882
Steroids and avascular necrosis of bone. Letter, 459
Straight sinus
Anatomic variations of venous sinuses in the region of the

torcular Herophili, 90
Striatum
Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Subarachnoid hemorrhage
Cerebrovascular reactivity in patients with ruptured intracranial aneurysms, 59
Cognitive impairment and adjustment in patients without neurological deficits after aneurysmal SAH and early operation, 673
Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
Early operation and overall outcome in aneurysmal subarachnoid hemorrhage, 547
Effect of diltiazem on experimental chronic cerebral vasospasm in the monkey, 912
Evaluation of the efficacy of intrathecal nimodipine in canine models of chronic cerebral vasospasm, 721
Heparin reduces proliferative angiopathy following subarachnoid hemorrhage in cats, 570
ICP patterns and isotope cisternography in patients with communicating hydrocephalus following rupture of intracranial aneurysm, 220
Leukotriene production in gerbil brain after ischemic insult, subarachnoid hemorrhage, and concussive injury, 865
Multiple intracranial aneurysms in sickle cell anemia. Report of two cases, 430
The natural history of aneurysms and arteriovenous malformations, 321
Regional CBF, intraventricular pressure, and cerebral metabolism in patients with ruptured intracranial aneurysms, 48
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Relationship between hemispheric cerebral blood flow, central conduction time, and clinical grade in aneurysmal subarachnoid hemorrhage, 25
The role of calcium and cellular membrane dysfunction in experimental trauma and subarachnoid hemorrhage, 698
Vertebral artery rupture associated with closed head injury. Report of two cases, 135
Subdural hematoma
Eosinophil degranulation in the capsule of chronic subdural hematomas, 257
Posterior fossa subdural hematomas in newborns. Letter, 626
Subdural hematomas in infants. Letters, 316
Subependymoma
Subependymomas of the fourth ventricle. Surgical treatment in 12 cases, 508
Sulfamethoxazole
Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
Superior sagittal sinus
Anatomic variations of venous sinuses in the region of the torcular Herophili, 90
Superoxide dismutase
Beagle puppy model of intraventricular hemorrhage. Effect of superoxide dismutase on cerebral blood flow and prostaglandins, 563
Synostosis
Lambdoid suture synostosis. Letters, 165
Syringomyelia
Neurocutaneous melanosis with hydrocephalus and syringomyelia. Case report, 148

Tamoxifen
Hormonal receptors in meningiomas. Letters, 162
Modulation of meningioma cell growth by sex steroid hormones *in vitro*, 757
Temporal lobe
Verbal memory deficits after left temporal lobectomy for epilepsy. Mechanism and intraoperative prediction, 101
Teratoma
Localization of carcinoembryonic antigen in mature intracranial teratomas, 870
Primary intracranial germ-cell tumors. A clinicopathological study of 14 cases, 826
Thalamotomy
Brain targets in surgery for Parkinson's disease. Results of a survey of neurosurgeons, 349
Thalamotomy for Parkinson's disease. Letters, 163
Thalamus
Electrical stimulation of the brain in treatment of chronic pain. Experience over 5 years, 389
Thermistor
Thermosensitive determination of obstructed sites in ventriculoperitoneal shunts, 363
Thermography
Thermographic imaging of cutaneous sensory segment in patients with peripheral nerve injury. Skin-temperature stability between sides of the body, 716
Thermographic presentation of cutaneous sensory and vasomotor activity in the injured peripheral nerve, 711
Torcular Herophili
Anatomic variations of venous sinuses in the region of the torcular Herophili, 90
Toxoplasmosis
AIDS with central nervous system toxoplasmosis. Letter, 459
Transcallosal approach
Transcallosal approach to the contralateral ventricle. Technical note, 304
Transclival approach
Transoral transclival removal of a schwannoma anterior to the craniocervical junction. Case report, 293
Transcutaneous electrical nerve stimulation
Inhibition of primate spinothalamic tract cells by TENS, 276
Transient ischemic attack
Positional intermittent occlusion of the internal carotid artery. Case report, 435
Transoral approach
Transoral transclival removal of a schwannoma anterior to the craniocervical junction. Case report, 293
Transplantation
Organ transplantation. Letter, 315
Transplantation of adrenal medullary tissue to striatum in parkinsonism. First clinical trials, 169
Transsphenoidal surgery
Pioneers in transsphenoidal pituitary surgery. Letters, 790
Results of neurosurgical treatment by a transsphenoidal approach in 10 patients with Nelson's syndrome, 68
Retraction system for transsphenoidal surgery. Technical note, 307
Transverse sinus
Anatomic variations of venous sinuses in the region of the torcular Herophili, 90
Trimethoprim
Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
Tumor marker
Localization of carcinoembryonic antigen in mature intracranial teratomas, 870
Tumor recurrence
Meningioma: analysis of recurrence and progression following neurosurgical resection, 18
Radiation therapy for incompletely resected meningiomas, 502
Suprasellar recurrence of third nerve neurinoma. Letter, 317

Index

Ultrastructural study
Eosinophil degranulation in the capsule of chronic subdural hematomas, 257
Microvascular alterations following cerebral contusion in rats. Light, scanning, and electron microscope study, 888
Urokinase
Lysis of intracranial hematomas with urokinase in a rabbit model, 580

Vascular anomaly
Anatomic variations of venous sinuses in the region of the torcular Herophili, 90
Vasospasm
Cerebrovascular reactivity in patients with ruptured intracranial aneurysms, 59
Early cerebral blood flow and computerized tomography in predicting ischemia after cerebral aneurysm rupture, 850
Effect of diltiazem on experimental chronic cerebral vasospasm in the monkey, 912
Heparin reduces proliferative angiopathy following subarachnoid hemorrhage in cats, 570
Implications of nimodipine prophylaxis of cerebral vasospasm on anesthetic management during intracranial aneurysm clipping, 200
The isolation and characterization of Ca^{++}-accumulating subcellular membrane fractions from cerebral arteries, 729
Regional CBF, intraventricular pressure, and cerebral metabolism in patients with ruptured intracranial aneurysms, 48
Regional cerebral blood flow and metabolism in reversible ischemia due to vasospasm. Determination by positron emission tomography, 539
Vein graft
Revascularization of the extracranial vertebral artery at any level without cross-clamping, 334
Ventral root
Spontaneous activity of ventral root axons following peripheral nerve injury, 408
Ventricle
Isolated ventricles following intraventricular hemorrhage, 357
Ventriculoatrial shunt
Intraoperative echocardiographic control during ventriculoatrial shunt placement. Technical note, 783
Ventriculoperitoneal shunt
Intracranial pressure changes in arrested hydrocephalus, 77
Thermosensitive determination of obstructed sites in ventriculoperitoneal shunts, 363
Ventriculostomy
Results of trimethoprim-sulfamethoxazole prophylaxis in ventriculostomy and shunting procedures. A double-blind randomized trial, 694
Vertebral artery
Hemiparesis caused by vertebral artery compression of the medulla oblongata. Case report, 425
Revascularization of the extracranial vertebral artery at any level without cross-clamping, 334
Vertebral artery rupture associated with closed head injury. Report of two cases, 135
Vertebrobasilar insufficiency
Revascularization of the extracranial vertebral artery at any level without cross-clamping, 334
Vocal cord paralysis
Vocal cord paralysis associated with anterior cervical fusion. Considerations for prevention and treatment, 657

Xenon study
Evaluation of treatment of normal-pressure hydrocephalus, 513
Stable xenon CT blood flow mapping for evaluation of patients with extracranial-intracranial bypass surgery, 324

Zygomatic approach
Zygomatic approach for lesions in the interpeduncular cistern, 340
